

ENROLLMENT STATISTICS

WINTER 1973-74

SIR GEORGE WILLIAMS UNIVERSITY

TO: DEANS, DEPARTMENT CHAIRMEN AND HEADS OF SERVICE:

Here are, at last, the Statistics for Winter 1973-74. Due to exceptional circumstances, it has not been possible to produce them earlier. Please accept our apologies for the delay.

Sources of data are 1) Computer Centre Registration file as of October 1973 and 2) Department Chairmen.

Please note that in Tables I and III, partials are included in detailed data. To facilitate comparison with 1972-73 data, Tables II and IV have been added. They also provide a breakdown of partial students by level.

Any comments regarding this present document would be appreciated.

\* This table should be used for general indication only. The establishment of numerical categories has its inevitable weaknesses. For example, a class which squeezes 52 students into a 50-seat room is probably in a different situation pedagogically from a class of 52 students in a 100-seat room, or again a class with 103 students officially registered may in fact be given in a 100-seat room.
